

Atsushi Yamaguchi received the Doctor of Science from Kyoto University in 2008. In 2008, he joined National Institute of Information and Communications Technology (Japan) as a post-doctoral fellow, where he built a strontium optical lattice clock. In 2011, he joined Physikalisch-Technische Bundesanstalt (Germany) as an Alexander von Humboldt Research Fellow, where he was involved in a thorium nuclear clock experiment. Since 2013, he has been a research scientist at Quantum Metrology Laboratory, RIKEN, Japan, where he developed a cadmium optical lattice clock and is currently working on a thorium nuclear clock.
