

**Yoshizumi Miyoshi** received the B.S., M.S., and Ph.D degrees in geophysics from Tohoku University, Sendai, Japan, 1996, 1998, and 2001, respectively. He has been Nagoya University since 2004. He is currently a Professor in Institute for Space-Earth Environmental Research, and Graduate School of Engineering, Nagoya University. His major research interests include, dynamics of Van Allen belts, wave-particle interactions in geospace and space weather. He also joins the geospace exploration project ERG/Arase as the project scientist. He is an editor of *Annales of Geophysicae* of European Geoscience Union, and *Earth, Planetary Physics* of Chinese Academy of Science. He is a member of the Society of Geomagnetic and Earth, Planetary and Space Sciences (SGEPSS), Japan Geoscience Union (JpGU), Asia-Oceania Geoscienc Society(AOGS), and American Geophysical Union (AGU).
